SATISFIED CLIENTS

Since its establishment, IPB has been the top choice for large-sized companies.

Industrial Park Brasov

ABOUT US

Industrial Park Brasov is a private project, functional since 2008, developed on a surface of 60 hectares. It is situated 7 km away from the city of Brasov.

The construction of the production halls is made in complete compliance with each customer's specific request and the type of activity to be carried out.

Total built surface: 155,500 m² build-to-suit halls, with 100% occupancy rate (May 2023).

45,000 m² under construction, to be delivered in 2023.

We offer fully serviced business sites for medium and large-sized companies.

Our customers have generated successful businesses and created more than 6,000 jobs.

Industrial Park Brasov benefits from all logistic & infrastructure advantages, serving the entire park, while also providing any specific services required by the customers.

We are continuously developing our project for all our customers and we welcome the opportunity to partner with new companies as well.

ABOUT BRASOV

Brasov has excellent development potential, a remarkable industrial tradition, an important technical university and offers a strong local environment to attract foreign investments. Another key advantage for Brasov city is the large number of foreign language speakers, both English and German.

Industrial Park Brasov
